

# THINK INSIDE THE BOX!

## Horner Bundle Your Complete PLC Solution

Announcing Horner's new pre-built system that includes a Horner OCS all-in-one controller already mounted in a UL 508 certified panel including a power supply and prewired terminals for the I/O connections. Everything you need to get started now comes in a simple pre-built assembly!

Pre-wired I/O

75W Power Supply

**Getting Started with a Horner All-in-One Controller has never been easier!**

### PANEL

The panels are made out of steel and are weatherproof for use in almost any application. This heavy-duty panel is also large enough to fit everything you need to get started with a Horner All-In-One controller.

### POWER SUPPLY & ACCESSORIES

A 75W power supply is included along with prewired external Ethernet connections for applicable systems and prewired I/O connections for varying I/O configurations.

### CONTROLLER OPTIONS

The Horner Bundle is currently available for any of our Micro OCS systems (starting with the X4) along with the EXLW / XLW Prime, with more options to come based on needs and demand.

### QUICK CUSTOMER SOLUTION
